The Ludwigsdenkmal consists of an obelisk to the memory of the Grand Duke Louis IV. which was erected in 1895 in a prominent position in the centre of the Ludwigsplatz Close adjacent is the ancient church of St. Martin which was built in 1668, and partly destroyed by fire in 1689 and was carefully restored in 1888. Among the many objects of interest in its interior are some beautiful old and precious frescoes which suffered considerable damage at the time of the fire
